Read the following passage and then answer the question :

Henry Ford was the first person to build cars which were cheap, strong and fast. He was able to sell millions of models because he "Mass-Produced" them: that is, he made a great many cars of exactly the same type. Ford's father hoped that his son would become a farmer, but the young man did not like the idea and he went to Detroit where he worked as a mechanic. By the age of 29, he had built his first car. However, the first mass-produced car in the world, the famous Model T, did not appear until 1908-five years after Ford had started his great Motor Company. This car proved to be so popular that it remained unchanged for twenty years. Since Ford's time, mass-production methods have become common in industry and have reduced the price of many articles which would otherwise be very expensive.

- 56- Henry Ford was the person to build cars .
 a- first b- second c- third d- fourth
- 57 - Henry's Father hoped that his son would become a
 a- mechanic b- professor c- Farmer d- doctor
